It's Not A Coach® Bag Without The Coach® Tag.

There has, in recent years, been a proliferation of imitation Coach tags hanging from imitation Coach Bags.

There is a simple way to be sure you are not confused or deceived by these imitations.

Just remember: it is not a Coach Tag unless it has our name on it, and it is not a Coach Bag unless it has our tag on it.

The tags pictured here represent the ten Coach Colors now in production.

Because the natural color tones of Coach Glove Tanned Cowhide are difficult to reproduce in print, this chart is intended only as a guide. An actual set of Glove Leather swatches can be had for the asking.

A Few Of The Things You Should Know About Us

We are a small family owned company that has been making leather bags, belts and billfolds since 1941.

In that time we have built a rather remarkable following, and our trademark (the little leather tag, dangling on a beaded brass chain) is widely recognized both here and abroad.

You will find our leather products in the Handbag and Men's Furnishings Departments of the leading stores.

You will also find them in selected Haberdashery, Women's Specialty and Luggage stores where quality leather accessories are sold.

Our Leather

Except for the Water Buffalo Hide wallets and accessories on pages 35-43, everything shown in this catalogue is made out of the same leather—a full grain, uncorrected glove tanned cowhide that is essentially the same leather used in making baseball gloves.

Working with a leading tanner of baseball glove leather, we have developed a special formulation of tanning extracts and emollients that renders this rugged leather soft and supple to the touch without in

any way detracting from its strength or beauty.

The scars, scratches, veins and wrinkles that give our leather its special character have not been sanded down or buffed.

We have also taken great care not to cover them with paints, sealers or artificial finishes, using only clear aniline dyes in a range of colors that enhance rather than conceal these beautiful natural markings.

Instead of peeling and cracking as painted leathers do, Coach Glove Tanned Cowhide develops its own distinctive patina, changing gradually in appearance and darkening in coloration as it is worn.

Our Design Concept

Although widely imitated, Coach Bags and Belts have, over the years, firmly established themselves, both here and abroad, as the genuine article—true American classics that are very well made and never go out of style.

Every Coach Bag is identified at the Coach factory with its own registration number.

If it is a genuine Coach Bag, you will find this registration number branded right into the leather on an inside pocket.

Our designs are straightforward and functional. No unnecessary ornamentation, no gadgets, no gimmicks.

№9455 Basic Bag \$82

The Coach Bag that started a look. Soft, perfectly proportioned clutch swings off the hip. Detachable double strand shoulder strap with solid brass dog-leash hardware. A casual bag by day, a simple, elegant bag at night. Solid brass industrial zipper with wrist strap pull. Dimensions: 11" x 7" x 2"

All ten Coach Colors shown on page one. Shown in Bone.

№1070 36" Replacement Strap \$15

The Creaser bears down on a hot creasing iron to produce a burnished edge on a leather pocket.

There are no linings to tear, no cardboard reinforcements to break. Just generous cuts of full grain leather, carefully sewn together, double stitched where necessary, so as not to come apart.

Our Distribution

Quality leather goods must be made in small carefully supervised lots that do not readily lend themselves to mass production.

That is why we are so selective in choosing our retail outlets, and that is why you will find Coach products in only the very best Department and Specialty stores.

Our Prices

The prices shown in this catalogue will be valid until June 30, 1985. These prices represent exceptionally good value, and the fact is that you cannot buy equivalent quality for less money anywhere.

One further note: It is not our intention, nor is it within our province, to fix the prices at which our products are selling in retail stores throughout the country. Every

store has its own mark-up policy and determines its own retail prices. It is to be expected therefore that prices may vary somewhat from store to store.

Our Commitment

Throughout the forty years that we have been in business, we have always tried to maintain the highest standards of our craft.

In the face of pressures placed on us by the great demand for our products, we have chosen to remain a small, privately held company, deeply committed to the excellence of our work and the quality of our service.

Whether you make your purchase from one of the fine stores that carry our products, or whether you place your order directly with us, we are equally committed to your satisfaction and will go to great lengths to honor that commitment.

Our products are well made out of good leather and designed to be worn and enjoyed for many years. We hope that they will serve you well, and that you will find them a lasting source of satisfaction and pleasure.

Coach Bags, Belts and Accessories can be bought in our own Coach Stores and in selected stores throughout the U.S.

They can also be ordered directly from our factory and sent to you free of any shipping or handling charges.

Here Are A Few Classic Bag Fittings That We Make Out Of Coach® Glove Tanned Cowhide

For several years now, we have been producing a small collection of these classic Bag Fittings especially designed to accessorize our bags.

These Bag Fittings are made out of the same Glove Tanned Cowhide that we use to make our bags and belts. Like the bags and belts, they respond very well to wear, taking on a rich patina as they are worn.

In order to make these small pieces out of our glove leather, it is

necessary to split it down to a lighter weight.

This is accomplished by running each part through a splitting operation that reduces it to the desired thickness and in the process, renders it as soft and supple as a piece of fine Calfskin.

Except for the two Make-Up Kits, which are lined with a treated cotton ticking that resists spills, every piece is fully lined in leather. The zippers and snap fasteners are solid brass. The purse frames are covered with leather.

Coach Bag Fittings are made in most of the Coach Colors. They can be matched, coordinated, or color coded for easy identification.

A Word About Our Factory

Everything in this catalogue was made by us in our own factory. We do not contract any part of our production to be made for us by someone else. Nor do we supplement our offerings with items purchased elsewhere or imported from abroad.

The Coach Factory, located as it is right in the heart of downtown New York City, has drawn its workforce from the many separate

ethnic communities that make up the New York metropolitan area. Over the years we have recruited men and women of many different races, creeds and nationalities, rich in heritage and skills.

If Coach products have enjoyed a measure of recognition and success, it is in no small part because they are made in this great city by a unique workforce whose skills, energy and quick intelligence make it possible, even in these times, to turn out a good product at a fair price.

A Few Of The Things You Should Know About Coach® Belts

Coach Belts are classic Glove Leather belts that have always been made in the same basic model with the same classic harness buckles.

All Coach Belts have the same crisp, traditional saddlery look that is unmistakably Coach.

They are distinguished by their fine stitching, their smooth ridges and their authentic solid brass buckles.

These buckles are not brass plated.

They are brass through and through, cast in sand by a foundry that has been making equestrian hardware for over a hundred years.

We make Coach Belts in both men's and women's sizes. They are made along with our Coach Bags—produced in the same factory, made out of the same leather and stitched by the same sewing machine operators.

The Wallets And Accessories Pictured On The Following Pages Are All Made Out Of Real Water Buffalo Hide. Here Is The Story Of This Remarkable Leather.

In the forty years or so that we have been making turned-edge wallets, we have never seen a leather so ideally suited to this purpose.

It is thin. It is firm. It has the distinctive temper and "squeak" of a vegetable-tanned leather, and the beautiful natural graining of a fine piece of wood.

The wallets and accessories shown on the following pages are all made out of this same full-grain leather, no two pieces of which are exactly alike. As the leather is worn, it gradually acquires a bright, polished appearance that brings out the beautiful natural markings that lie hidden just below the surface.

The slow-curing vegetable tannage that gives Coach Water Buffalo Hide its special character was probably first developed in the small village tanneries of India, where this primitive method is still employed today. For months at a time, the hides are left to soak in tanning pits dug into the ground and filled with specially

prepared mixtures of natural tree bark extracts.

Most of this leather is destined to be cut up into sandals, but the best hides are set aside for the small leather goods trade. Dried out, stiff and as yet uncolored, they are baled for shipment and delivered to the ports from where they are shipped overseas.

From this "crust leather," as it is called at this stage, we select the skins with the most interesting natural markings. They are put into large wooden drums along with an exclusive formulation of bark extracts, fat liquors and dyes. The drum is rotated slowly for many hours, allowing the ingredients to penetrate deep into the leather.

When this cycle is complete, the leather is removed and set out to dry. In a remarkable transformation, what started out as a rough, wrinkled hide is now a smooth, supple, richly grained leather of extraordinary character.

We make Coach Water Buffalo Hide in eight beautiful colors and will be pleased to send you a set of swatches on request.
