

All COACH® Bags are derived from a single design concept. It is a concept that favors continuity over trendiness. Quality and value over expedience.

For more than fifteen years COACH has been producing the same great-looking bags. Bags that are always in good taste—never out of style. Bags that are very well made and that sell at a fair price. Like the sampling of bags pictured in this booklet.

There are differences in scale and silhouette, but there is no mistaking that they are all COACH® Bags — each one cut out of a

beautiful piece of full-weight, natural leather that never seems to wear out and actually improves with age.

When you are ready for your next COACH® Bag, your dealer will be happy to advise you as to prices and choice of colors.

If you are unable to find the bag you want in the color you prefer, you may write directly to the Coach Factory, (att: Consumer Service) and we will arrange to have your order filled by mail.
