A Few of the Things You Should Know About Us

We are a small family-owned company
that has been making leather bags,
belts and billfolds since 1941.

In that time we have built a rather
remarkable following, and our trade-
mark (the little leather tag, dangling
on a beaded brass chain) is widely
recognized both here and abroad.

You will find our leather products in
the Handbag and Men's Furnishings
Departments of the leading stores.
You will also find them in selected
Haberdashery, Women's Specialty
and Luggage stores where quality
leather accessories are sold.

Our Leather

Except for the Water Buffalo Hide
wallets and accessories on pages
27-32, everything shown in this
catalogue is made out of the same
leather—a full grain, uncorrected
glove-tanned cowhide that is
essentially the same leather used in
making baseball gloves.

Working with a leading tanner of
baseball glove leather, we have
developed a special formulation of
tanning extracts and emollients that
renders this rugged leather soft and
supple to the touch without in any
way detracting from its strength
or beauty.

The scars, scratches, veins and
wrinkles that give our leather its
special character have not been
sanded down or buffed. We have also
taken great care not to cover them
with paints, sealers or artificial
finishes, using only clear aniline dyes
in a range of colors that enhance
rather than conceal these beautiful
natural markings.

Instead of peeling and cracking as
painted leathers do, Coach Glove
Tanned Cowhide develops its own
distinctive patina, changing gradu-
ally in appearance and darkening
in coloration as it is worn.

The cutter positions his dies carefully. He is mindful of the high cost of leather and is looking for choice cuts that will not throw off excessive waste.

Our Design Concept

Although widely imitated, Coach Bags and Belts have, over the years, firmly established themselves, both here and abroad, as the genuine article—true American classics that are very well made and never go out of style.

Our designs are straightforward and functional. No unnecessary ornamentation, no gadgets, no gimmicks. There are no linings to tear, no cardboard reinforcements to break. Just generous cuts of full grain leather, carefully sewn together, double stitched where necessary, so as not to come apart.

If you examine the Coach Bags pictured in this catalogue, you will observe that they are all derived from a single design concept and that they are all, in fact simple variations of one construction.

The Classic Shoulder Bag (on page 14) was the first bag we ever made in this construction. It is a soft, unlined, casual bag. Like the others, it is made entirely of leather with an outside seam and a continuous leather binding that reinforces the edge. Fashion trends have come and gone since we first introduced the Classic Shoulder Bag yet, year after year, this simple bag continues to be one of our most popular styles.

Our Distribution

Quality leather goods must be made in small carefully supervised lots that do not readily lend themselves to mass production. This limits the number of units that can be produced, even in a well organized leathergoods factory such as ours.

The demand for our products has for some time exceeded our capacity to produce them. As the demand is still growing, it is reasonable to assume that Coach Leatherware will continue to be in short supply for some time.

That is why we are so selective in choosing our retail outlets, and that is why you will find Coach Bags, Belts

and Accessories in only the better Department and Specialty stores.

(A list of these stores has been included in the Consumer Service Kit that is attached to this catalogue.)

Our Prices

The prices shown in this catalogue will be valid until June 30, 1984.

We wish we could make our bags, belts and billfolds to sell for less than they do, but unfortunately the supply of good leather is limited, and the cost of choice hides, expensive to begin with, continues to rise sharply.

Our prices, nevertheless, have always represented exceptionally good value, and the fact remains that you cannot buy equivalent quality for less money anywhere.

One further note: It is not our intention, nor is it within our province, to fix the prices at which our products are selling in retail stores throughout the country. Every store has its own mark-up policy and determines its own retail prices based, among other factors, on the services it provides. It is to be expected therefore that prices may vary somewhat from store to store.

Our Catalogue

Our Catalogue is intended as a guide to the full range of products that we make. We hope you will find it a useful reference.

Unlike most catalogues, the Coach Catalogue features the output of a single factory. Everything in this catalogue was made by us in our own factory in downtown New York City. We do not contract any part of our production to be made for us by anyone else. Nor do we supplement our offerings with items purchased elsewhere or imported from abroad.

We would also like to call your attention to the fact that we do not make a practice of selling our mailing lists. You may be certain, therefore, that your name and address will not

be sold, exchanged or in any way made available to anyone else.

Our Factory

There is much more to a factory than the mere orderly arrangement of tables and fluorescent lighting fixtures. Every factory is, in fact, a unique creation, its special character derived from the collective capabilities of its workers.

The Coach Factory, located as it is right in the heart of downtown New York City, has drawn its workforce from the many separate ethnic communities that make up the New York metropolitan area. Over the years we have recruited men and women of many different races, creeds and nationalities, rich in heritage and skills.

If Coach products have enjoyed a measure of recognition and success, it is in no small part because they are made in this great city by a unique workforce whose skills, energy and quick intelligence make it possible, even in these times, to turn out a good product at a fair price.

Our Commitment

Throughout the forty years that we have been in business, we have always tried to maintain the highest standards of our craft. In the face of pressures placed on us by the great demand for our products, we have chosen to remain a small, privately held company, deeply committed to the excellence of our work and the quality of our service.

Whether you make your purchase from one of the fine stores that carry our products, or whether you place your order directly with us, we are equally committed to your satisfaction and will go to great lengths to honor that commitment.

Our products are well made out of good leather and designed to be worn and enjoyed for many years. We hope that they will serve you well, and that you will find them a lasting source of satisfaction and pleasure.

It's Not A Coach® Bag Without The Coach® Tag.

There has, in recent years, been a proliferation of imitation Coach tags hanging from imitation Coach Bags. There is a simple way to be sure you are not confused or deceived by these imitations.

Just remember: it is not a Coach Tag unless it has our name on it, and it is not a Coach Bag unless it has our tag on it.

The tags pictured below represent the ten Coach Colors now in production. Because the natural color tones of Coach Glove Tanned Cowhide are difficult to reproduce in print, this chart is intended only as a guide. An actual set of Glove Leather swatches can be had for the asking.

Here Are A Few Classic Bag Fittings Made Out Of Glove Tanned Cowhide Especially Designed To Help You Organize Your Coach® Bag

For several years now, we have been producing a small collection of these classic Bag Fittings to accessorize our bags.

These Bag Fittings are made out of the same Glove Tanned Cowhide that we use to make our bags and belts. Like the bags and belts, they respond very well to wear, taking on a rich patina as they are worn.

In order to make these small pieces out of our leather, it is necessary to split it down to a lighter weight.

This is accomplished by running each part through a splitting operation that reduces it to the desired thickness and, in the process, renders it as soft and supple as a piece of fine Calfskin.

Except for the two Make-Up Kits, which are lined with a treated cotton ticking that resists spills, every piece is fully lined in leather. The zippers and snap fasteners are solid brass. The purse frames are covered with leather.

Coach Bag Fittings are made in most of the Coach Colors. They can be matched, coordinated, or color coded for easy identification.

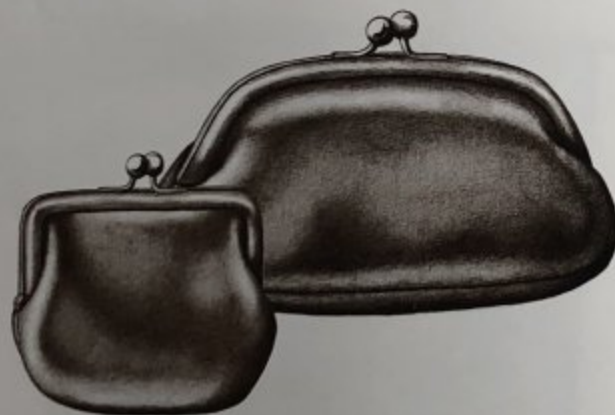

As with our bags and belts, we keep a small inventory of Coach Bag Fittings here at the Factory. If you are having difficulty finding them in a store near you, we will be pleased to handle your orders directly from our Consumer Service Department.

A Few of the Things You Should Know About Coach Belts

Coach Belts are classic Glove Leather belts that have always been made in the same basic models with the same classic harness buckles.

They are made along with our Coach Bags — produced in the same factory, made out of the same leather and stitched by the same sewing machine operators.

Like the Windsor chair that was advertised back in 1787, Coach Belts can best be described as "neat, elegant and strong... warranted of good seasoned materials so firmly put together as not to deceive the purchaser by untimely coming to pieces."

We make Coach Belts in both men's and women's sizes. In addition to our leather belts, we also make a small selection of natural fiber belts with

beautifully detailed leather tabs at either end.

Whether they are made entirely of leather or in combination with colorful wools and linens, all Coach Belts have the same crisp, traditional saddlery look that is unmistakably Coach.

Coach Belts are distinguished by their authentic solid brass buckles. These buckles are not brass plated. They are brass through and through, cast in sand by a foundry that has been making equestrian hardware for over a hundred years.

No 100 1" Tab Belt \$32
No 6300 1 1/4" Tab Belt \$36

An especially supple, self-lined, glove leather belt with the distinctive tab ends first introduced by Coach many years ago. Hand folded edges. Solid brass harness buckle.

The 1" belt is made in even sizes 26-34.

All ten Coach Colors shown on page three.

The 1 1/4" belt is made in even sizes 30-42.

No 2800 3/4" Harness Belt \$22
No 6600 1" Harness Belt \$25

Real glove tanned cowhide bonded to full grain, bark tanned strap leather. The glove leather for suppleness and hand; the strap leather for snap and temper. Waxed edges. Solid brass harness buckle. The 3/4" belt is made in even sizes 26-34. The 1" belt is made in even sizes 26-40.

All ten Coach Colors shown on page three.

No 7600 1 1/4" Bridle Belt \$28

Basic Men's belt in real glove-tanned cowhide. Same construction as the Harness Belt, but with a somewhat dressier, square-cornered brass buckle that is very highly polished. Even sizes 30-44.

Black, British Tan, Burgundy, Mocha, Tabac.

No 2500 1" Carriage Belt \$36
No 2600 1 1/4" Carriage Belt \$42

And Here Are The Classic Wallets And Accessories That We Make Out Of Coach® Water Buffalo Hide, Nature's Most Extraordinary Leather

In the forty years or so that we have been making turned-edge wallets, we have never seen a leather so ideally suited to this purpose.

It is thin. It is firm. It has the distinctive temper and "squeak" of a vegetable-tanned leather, and the

beautiful natural graining of a fine piece of wood.

The wallets and accessories shown on the following pages are all made out of this same full-grain leather, no two pieces of which are exactly alike. As the leather is worn, it gradually acquires a bright, polished appearance that brings out the beautiful natural markings that lie hidden just below the surface.

The slow-curing vegetable tannage that gives Coach Water Buffalo Hide its special character was probably first developed in the small village tanneries of India, where this primitive method is still employed today.

For months at a time, the hides are left to soak in tanning pits dug into the ground and filled with specially prepared mixtures of natural tree bark extracts.

Most of this leather is destined to be cut up into sandals, but the best hides are set aside for the small leather goods

trade. Dried out, stiff and as yet uncolored, they are baled for shipment and delivered to the ports from where they are shipped overseas.

From this "crust leather," as it is called at this stage, we select the skins with the most interesting natural markings. They are put into large wooden drums along with an exclusive formulation of bark extracts, fat liquors and dyes. The drum is rotated slowly for many hours, allowing the ingredients to penetrate deep into the leather.

When this cycle is complete, the leather is removed and set out to dry. In a remarkable transformation, what started out as a rough, wrinkled hide is now a smooth, supple, richly grained leather of extraordinary character.

We make Coach Water Buffalo Hide in eight beautiful colors and will be pleased to send you a set of swatches on request.

The special quality that distinguishes really well made leathergoods is provided by the human hand—ten nimble fingers outperforming even the most sophisticated machinery.
