It's Not A Coach® Bag Without The Coach® Tag

Our Concept

Coach has been making fine quality leather products for 45 years. We are gratified that during this time they have become known as true American classics—straightforward, functional designs that are very well made and never go out of style.

The Coach tag, too, has acquired a reputation over the years as the trademark of the finest bags, belts, billfolds and portfolios.

Our Leather

All of our handbags and portfolios are made out of the same leather—a full-grain, natural glove tanned cowhide that is essentially the same leather used in making baseball gloves. We use a special formulation of tanning extracts and emollients that renders this rugged leather soft and supple without detracting from its strength or beauty. We take great care to enhance, rather than conceal, the natural markings that give our leather its special character.

That is why no two Coach Bags will ever look the same. And that is why your Coach will actually get better and better, developing its own distinctive patina as it is worn.

Our Twill

Some of our most popular styles are now available in Khaki cotton twill, trimmed in Tabac glove tanned cowhide. The durable two-ply industrial-weight cotton is specially treated to resist stains.

Our Production Stages

In this catalogue our factory pictures and captions form a brief, guided tour of our five major production stages. They show some of the detailed steps and extra care that go into creating Coach quality.

Stage 1—Cutting

The same process that makes Coach leather unique also presents an extra challenge to our cutters. Since we enhance, rather than mask, the natural markings of the leather, each piece must be judged and cut according to its individual character.

Our Registration

Every Coach bag and portfolio is identified at our factory with its own registration number. If it is a genuine Coach, you will find this registration number branded into the leather on an inside pocket.

Our Distribution

Quality leather goods must be made in small, carefully supervised lots that do not readily lend themselves to mass production.

That is why you will find Coach products in only the very best Department and Specialty stores.

Our Commitment

We have always tried to maintain the highest standards of our craft. We are deeply committed to the excellence of our work and to your satisfaction. We will go to great lengths to honor that commitment.

Our leather products are very well made and designed to be worn and enjoyed for many years. We hope that they will serve you well, and that you will find them a lasting source of pleasure.

Stage 2—Preparation

The preparation department includes a section devoted completely to seam bindings. Unlike other manufacturers, we prepare all our own bindings, using special techniques we have developed over the years. The bindings are a major part of the Coach look, and their durability is one of the reasons our products last for years.

Stage 3—Assembly

As many as 85 different steps go into making each Coach product. Many take place during this stage, including much of the hand-work that distinguishes fine leatherware. Craftsmen skilled in fine leathersgoods assembly are rare in America, which is why some of these techniques are found only at Coach.

All Coach products can be ordered directly from our factory and sent to you free of any shipping or handling charges.

Here Are A Few Classic Bag Fittings That We Make Out of Coach® Glove Tanned Cowhide

For several years now, we have been producing a small collection of these classic Bag Fittings especially designed to accessorize our bags.

Coach Bag Fittings are made out of the same Glove Tanned Cowhide that we use to make our bags. Like the bags, they respond very well to wear, taking on a rich patina as they are worn.

In order to make these small pieces out of our glove leather, it is necessary to split it down to a lighter weight.

This is accomplished by running each part through a splitting

operation that reduces it to the desired thickness and in the process, renders it as soft and supple as a piece of fine Calfskin.

With the exception of the Squeeze Keycase, all Coach Bag Fittings are fully lined. The two Make-Up Kits are lined with a water-resistant cotton ticking. The other Bag Fittings are lined with leather. The zippers and snap fasteners are solid brass. The purse frames are covered with leather.

Coach Bag Fittings are made in all ten Coach Colors. They can be matched, coordinated, or color coded for easy identification.

Stage 4—Sewing

Creating the close, even stitches found on fine leathers requires specialized skills. At Coach, the thickness of our leather makes the sewing machine operator's job even more demanding. Our operators exercise great skill and draw on many years of experience in order to produce as many as twelve stitches per inch through several layers of leather.

Stage 5—Finishing

Coach products are inspected after each production stage, and then again at Finishing. All our inspectors have at least five years experience. Their supervisor, who inspects every product, has 40. After inspection, bags and portfolios are packed in presentation boxes and all finished products are prepared for shipment.

If Coach products have enjoyed a measure of recognition and success, it is in no small part because they are made by a unique workforce whose skills, energy, and quick intelligence make it possible, even in these times, to turn out a good product at a fair price.
